NIS CHAPTER IX MEMO NO. 28
(REVISION)
DATE 17 September 1957

MEMORANDUM FOR: NIS Chapter IX Contributors

SUBJECT: Classification and control of maps in or from publications

1. Many maps selected for inclusion in the Chapter IX are available only as an integral part of a publication and are cited in Section 91 as being in that publication (see Chapter IX Memo 15, Revision, 17 September 1957). Usually the classification (and control, if applicable) of the map is the same as that of the publication in which it appears, and one classification (and control) will suffice in the citation. Wherever the classifications and/or controls of the map and of the publication differ, information pertinent to each should be given in the citation (i.e., map Confidential, publication Secret, NOFORN).

2. Some maps selected for Chapter IX have been removed from a publication, cataloged separately, and cited by the map call number (see Memo 15, above). In these cases, include in the citation the classification and control of the map only.
